Ranjit Sapkal

Full Stack Developer

Pune, India | +91 7083512623 | ranjitsapkal20@gmail.com | linkedin.com/in/ranjit-sapkal

PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience designing, developing, and maintaining web applications using Node.js, NestJS, Express.js, MySQL, and React.js. Strong expertise in backend development, RESTful API design, database optimization, authentication and authorization, and microservices architecture. Hands-on experience with Keycloak, Elasticsearch, Kibana, BullMQ, and Redis for secure authentication, application monitoring, and background job processing. Familiar with frontend development using React.js, HTML5, CSS3, and Bootstrap to build responsive user interfaces and integrate them with backend services. Experienced in third-party integrations, API gateway management using Kong, and CI/CD pipelines.

TECHNICAL SKILLS

Backend Development: Node.js, NestJS, Express.js, RESTful APIs, Microservices Architecture, Middleware, API Validation, Error Handling, Asynchronous Programming

Frontend Development: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, React Hooks, React Router

Databases & Search: MySQL, SQL, MongoDB, Elasticsearch, Database Design, Query Optimization, Indexing

Authentication & Authorization: Keycloak, JWT, Access Tokens, Refresh Tokens, Role-Based Access Control (RBAC)

Background Processing: BullMQ, Redis, Background Jobs, Asynchronous Task Processing

Logging & Monitoring: Elasticsearch, Kibana, Application Log Analysis, Error Monitoring

DevOps & CI/CD: Docker, Git, GitHub, GitHub Actions, CI/CD Pipelines, Automated Testing, AWS (EC2, S3 - Basic)

Tools & Practices: Postman, OpenAPI/Swagger, npm, Cursor, Antigravity, Agile/Scrum, OOP, Data Structures & Algorithms

PROFESSIONAL EXPERIENCE

Software Developer | Product Unit January 2023 - Present

HiddenBrains Infotech, Pune

- Developed and maintained full-stack web applications using React.js, Next.js, Node.js, NestJS, Express.js, and MySQL, covering frontend interfaces, backend services, and database integration.
- Designed, developed, and maintained 100+ RESTful API endpoints with business logic, data validation, error handling, and database integration.
- Built reusable UI components and administrative dashboards using React.js, Next.js, HTML5, CSS3, and Bootstrap, improving consistency across internal applications.
- Implemented authentication and authorization using Keycloak and JWT, supporting secure API access and role-based access control.
- Designed relational database schemas and optimized SQL queries, indexing, and data-processing workflows to improve application performance.
- Implemented background job processing using BullMQ and Redis, and integrated Elasticsearch and Kibana for log analysis and troubleshooting.
- Contributed to CI/CD pipelines and automated testing using GitHub Actions to improve deployment reliability.
- Investigated production issues, improved error handling, and collaborated with cross-functional teams to deliver production enhancements.

KEY PROJECTS

MRS PRODUCTION CONTROL Oct 2023 - Present

Node.js, Express.js, MySQL, React.js, REST APIs

- Developed and maintained 100+ RESTful API endpoints using Node.js and Express.js for production management modules: BOM, production orders, batch processing, material requests, inventory consumption, quality tracking, and batch costing.
- Designed and optimized MySQL schemas, relational mappings, and SQL queries to support production workflows, inventory management, and batch costing.
- Implemented end-to-end business workflows connecting production orders, batch creation, material requests, material consumption, and batch cost calculations.
- Implemented API validation, error handling, authentication, and authorization to ensure secure and reliable backend operations.
- Developed and maintained application interfaces using React.js, HTML, CSS, and Bootstrap for production management and administrative workflows.
- Integrated frontend components with backend REST APIs to enable data management and real-time workflow updates.

APPLICATION HUB Jan 2025 - Present

Node.js, NestJS, Express.js, MySQL, React.js, Next.js, BullMQ, Redis, Elasticsearch, Kibana

- Developed backend services for a centralized application integration platform supporting third-party integrations and communication between internal systems.
- Designed and implemented RESTful APIs for connector management, library uploads, application configuration, and data synchronization.
- Designed MySQL schemas for application metadata, connector configurations, and synchronization logs to improve data integrity and traceability.
- Implemented background job processing using BullMQ and Redis to handle asynchronous synchronization tasks efficiently.
- Integrated Elasticsearch and Kibana for log analysis, monitoring, and troubleshooting integration failures.
- Developed frontend components using React.js, Next.js, HTML, CSS, and Bootstrap for connector configuration, integration status monitoring, and application management.
- Implemented error handling, synchronization status tracking, and secure API access to improve reliability and maintainability.

API GATEWAY MANAGEMENT DASHBOARD Jan 2026 - Jun 2026

Node.js, Express.js, MySQL, Kong API Gateway, React.js, Next.js

- Developed backend services integrating Kong API Gateway with internal applications to manage services, routes, consumers, and authentication configurations.
- Implemented RESTful integrations with the Kong Admin API to automate gateway configuration and API resource management.
- Worked with gateway security features, including key authentication, rate limiting, and access control policies.
- Designed MySQL structures to maintain gateway configuration records and API resource mappings.
- Developed dashboard interfaces using React.js, Next.js, HTML, CSS, and Bootstrap for API configuration and gateway resource management.
- Improved API management workflows by simplifying gateway configuration and reducing manual administrative effort.

EDUCATION

B.E. in Electronics and Telecommunications Jun 2019 - Mar 2023

SVPM College of Engineering, Malegaon, Baramati
